# About us

## Our Mission

To partner with emerging businesses to deliver expert consulting solutions that empower organizations to improve performance, innovate processes, and achieve sustainable growth.

## Our Vision

To inspire and enable organizations worldwide to reach their highest potential through innovative consulting and trusted partnerships.

# Our Services

## Compliance Certification, Auditing and Training

Training and Certification for ISO 9001, ISO 14001, ISO 45001, ISO 27001, AS 9100, ISO 13485 IATF 16949, Lean Six Sigma Yellow, Green and Black Belt Programs.

## Lean & Six Sigma Training & Implementation

Continuous improvement by leveraging Lean and Six Sigma Methodologies. Eradication of process variation and waste.

## Operational Excellence (OE) and Process Optimization

Positively impacting P&L of organizations through the use of OE and other Process Optimization tools.

## Supplier Development, and Performance Management

Building robust supplier partnership from inception to finalization/on-boarding. Support in setting up of APQP (advanced product quality planning) and PPAP (Production Part Approval Process) programs based on AIAG requirements.

## Data Integration, Visualization and Reporting

Data modeling using Power BI, Tableau and other business intelligence and AI tools. Development of Business & Operations Score Cards based on Leading & Lagging Indicators.

# Our Services

## Enterprise and Operational Risk Management

Use of Risk management tools for Business continuity planning, Disaster Recovery Planning, & Process, Design, Safety Failure Mode and Effect Analysis (FMEA).

## AI in Engineering

As we continue to witness the transformative power of AI in engineering, it's incredible to reflect on some of the remarkable achievements we've seen recently. From optimizing design processes to enhancing predictive maintenance, AI is revolutionizing the way we approach engineering challenges like Generative Design, Smart Manufacturing, and Sustainability.

## Program and Project Management

In the dynamic world of business, project management plays a pivotal role in driving success and achieving organizational goals. We assist organizations to effectively manage their programs designed to achieve their business vision and goals.

## Balanced Scorecard

We help organizations to develop a Balanced Scorecard (both business and operational) based on a strategic framework that aligns vision, strategy, and objectives across four dimensions: financial, customer, internal business, and learning.
